# Curriculum Vitae

## Personal Details

Name: Prashant Timilsina

Position: Frontend Web Developer

Email: prashanttimilsina16@gmail.com

Facebook: https://www.facebook.com/prashant.timilsina.752

## Professional Summary

An intermediate Frontend Web Developer with experience in building responsive and interactive web applications. Skilled in React.js, Vanilla JavaScript, and CSS, with a strong understanding of modern web development practices. Passionate about creating seamless user interfaces and improving user experiences, eager to continue learning and growing in the field.

## Skills

Frontend Development:
- Proficient in React.js for building dynamic user interfaces and single-page applications.
- Solid understanding of CSS, with experience in building responsive layouts using Flexbox and Grid.
Responsive Design:
- Skilled in creating mobile-first websites using media queries and CSS for cross-device compatibility.
JavaScript:
- Intermediate knowledge of Vanilla JavaScript for adding interactivity to websites and handling logic.
Version Control:
- Familiar with Git for version control and collaborative development.

## Objective

Looking for a frontend development role where I can apply my current skills, learn from experienced developers, and contribute to impactful web applications.
